Papa Smurf's beard and eyebrows

Eyebrows – with fuzzy yarn you will use for beard (or one you can brush a little for fuzzy effect) chain6 (cut the end leaving long enough yarn for sewing and se the eyebrows right above row 6 of the head. If you used safety eyes so position the eyebrows row above). Once sewed, take the brush and brush them a little to make them hairy.

If you are using 10 mm oval safety eyes for the Smurfs position them in between rows 8-12. So the bottom eye touches R13.

If you will make felt eyes or crochet them, or paint them, make the same. Make them 10 mm big, oval shaped.

Beard – ch23 (or adjust the chain count depending of the yarn used. Chain has to go from ear to ear, right below the nose, across the face.

Sew the beard on the head and brush it nicely to create hairy and fuzzy look.

Smurfette's hair

Hair is done is very classic doll making way.

Cut a guide of heavy paper or cardboard paper 15cm (5 ½”) wide and double this size long.

Wind wool yarn around the paper. Wind it for desired hair thickness (it depends on the wool you will use). You want nice looking hair, not to thick.

Stitch the yarn through one long edge. Cut through loops on remaining edge and tear away the paper.

Pin hair to the head, whip-stitch edge to head. When done sewing trim hair evenly to reach desired shape.
