**Vexy’s Skirt**  
*With black and blue colored yarns*

Start with black  
R1 Sl st to any front loop of R36, ch1 and single crocht around this row. Sl st last stitch to chain made at beginning  
R2 ch2, 2dc in back loop of next stitch, with blue yarn 2dc in front loops of next stitch (start making first dc of these two blue ones with black, yarn over, go through the front loop of the stitch, but pull blue yarn out – next stitch work with blue normally), next stitch are 2dc in black (back loops only)  
Stitch this way for all 36 stitches. 2dc of each color in one stitch. Blacks are going in back loops, blues front loops only.  
The same way are made R3 & R4

**Belt**  
*Yellow and blue yarns*

With yellow, ch36, sl st last to first to form closed ring  
R1 *sc2 in yellow, make pop-corn stitch in blue*, repeat all around  
(I made pop corn stitch using 3 single crochet stitches in same stitch tiding them as one)  
R2 with yellow yarn, single crochet all around.  
Tie off, hide ends

**Hair**  
Make a tassel 2 ½ - 3 inches (5-6 cm) long. Use black yarn for about 50 rounds, and add 10 of blue rounds to make her highlights.  
Once tassel is done and ends are cut, place it on top of the head and glue it.  
Comb the yarn to create Vexy’s hairstyle. Best is to look at her photo. Cut and shape if necessary.  
Place the hat on top and sew it or glue (when hair like this, I like to use the glue. Those that are suitable for textile are great for these kind of things.). Finish decorating the hair.
**Hackus**

Yarn colors used to make Hackus  
Light gray – head, arms, upper body part  
Medium brown – shoes, legs, lower body part and hat  
Light brown (rust color) – for hair, beard and eyebrows

Head, nose, ears, arms and legs are done the same as Smurf pattern.  
Apply colors as mentioned above to create the Hackus.

The only difference this Smurf has from all the rest is his body shape, which is chubbier.  
In order to create that, upper body part was changed.  
Here is the pattern on how to make the body.

R50 sc12 sts 2
Tie off. Stuff body nice and firm.

Hakkus’s Hair
Make tassel 2: 2 1/2 inches (5cm) long
Glue it on top of the head.
For the Hakkus’s hair style. Place the hat on his head. Glue it or sew it. Once the hat is placed, use little fabric starch and little by little form the “dreads” looking hairs on sides of his head. To achieve that, try to apply the fabric starch on tips of the hair only. To create the hair, ones need to play a little. So go and play! 😊

Eyebrows are glued on the face, and so is the side of the beard (one string of yarn cut to fit the bottom of face).
Actual beard hairs, were waved in the stitches on this chin part f the head. Cut few strings of yarn 6-7 (long enough to fold in half and work with). Use smaller hook for this (will be easier to get through the stitch).
Push the hook through the stitch at the middle of chin part of the head, yarn over with the half folded string of yarn you have prepared, pull through the stitch. Now you have this loop from the other side of the stitch. Yarn again with the remaining thread, and pull through this loop. Tighten!
In first row, make just two hairs
In row below make 3-4
And you can repeat 2 hairs in the third row.
Once all are set in place, cut the yarn to form V shaped beard, use some fabric starch again to make it firm and to saften the loops made.
